

SHRINIVAS GURUNATH ALAGERI

Senior Architect & Global Delivery Lead | Enterprise ALM/PLM & Agentic AI Transformation

+91 94494 85664 | salageri@gmail.com | [linkedin.com/in/shrinivasalageri](https://www.linkedin.com/in/shrinivasalageri) | salageri.github.io

Location: India | Work Authorization: India

EXECUTIVE SUMMARY

Strategic technical leader with 25 years of zero-downtime delivery across HP, Polycom, and ITC Infotech. Consistently appointed as the final escalation authority on mission-critical platform failures. Specializes in bridging legacy ALM/PLM ecosystems with modern Agentic AI — designing systems that eliminate engineering toil, enforce compliance at scale, and compress cycle times by measurable orders of magnitude. Proven on-site delivery record spanning Switzerland, USA, France, and Singapore.

CORE COMPETENCIES

- **Agentic AI:** Python 3.13, LangChain, RAG, LLM Orchestration, Prompt Engineering, MLOps
- **Platform Eng:** Docker, Kubernetes, CI/CD, Node.js, Java/Spring, REST, GraphQL, Serverless, Microservices
- **ALM/PLM:** PTC Windchill RV&S (13.2/13.5), Codebeamer, Aras PLM, IBM DOORS, ReqIF, OSLC, MBSE
- **Enterprise & Cloud:** SAP, SharePoint, Microsoft Azure (AI-900), SQL/NoSQL, CWE-522/209 Security Hardening

PROFESSIONAL EXPERIENCE

ITC INFOTECH (Revenue >\$1B) | Senior Architect & Global Delivery Lead | 2018 – Present

Schindler 'One Integrity' – Mission-Critical ALM/PLM Platform

- **Platform Ownership:** Architect and operate the mission-critical RV&S + SAP + SharePoint integration powering Schindler's 25-step Product Change Management process with zero unplanned downtime over 6+ years.
- **Agentic AI Implementation:** Designed a Python/LangChain agent automating bulk attachment reconciliation, achieving 64% P95 latency reduction and 60% reduction in audit cycle time; LLM fine-tuning pilot underway for requirements classification.
- **2026 Strategy Execution:** Spearheading RV&S-to-Codebeamer migration roadmap; successfully deployed Windchill evaluation sandboxes and glossary pilots adopted by senior leadership.
- **Security & Compliance:** Led remediation of CWE-522 and CWE-209 vulnerabilities in coordination with Microsoft Defender; full compliance achieved with zero service interruption.
- **System Integration:** Engineered real-time RV&S-to-M365 Central Glossary sync, eliminating a 3-day manual publishing cycle for 200+ global stakeholders.

INDEPENDENT CONSULTING | Freelance Solutions Architect | 2017 – 2018

Bangalore, India • Full-stack architecture, SaaS delivery, and executive data visualization

- **EventPlanner SaaS:** Architected and delivered a GraphQL + Serverless multi-tenant event management platform with real-time notifications and automated workflows.
- **Executive Dashboards:** Built real-time C-suite KPI dashboards using Angular + Tableau, integrating live data pipelines across multiple enterprise sources for a Fortune 500 client.

POLYCOM TECHNOLOGIES | polycom.com | Lead Software Developer – Video Expert | Mar 2011 – Mar 2017

Bangalore, India • Recruited via HP Halo Telepresence acquisition into Polycom's enterprise video portfolio

- **Frontend Leadership:** Made the case for React.js + Redux as the company-wide frontend standard; led adoption across teams and delivered it into a major U.S. Defense client deployment at scale.
- **RealPresence Cloud SDK:** Enhanced RealPresenceCloud React.js SDK for XMPP + WebRTC video/audio/chat; migrated WebRTC Video to a React SPA with React Router providing peer-to-peer signalling natively in-browser.
- **Concurrent Video Engine:** Designed and implemented algorithms for a concurrent layout system supporting up to 28 simultaneous HD video endpoints with zero GUI freeze.
- **SWAT Escalation Lead:** Principal triaging lead for customer escalations on Embedded Touch Control (REST, JNI, Android, .NET); mitigated ClickJacking, XSS, CSRF vulnerabilities per OWASP; automated GUI reset to achieve zero-downtime recovery.
- **Network & Cloud Migration:** Drove migration of applications and source from HP HVEN to Polycom RPNET domain; evaluated Microservices, NoSQL, and AWS for Video-as-a-Service (VaaS); developed CDR applications using Spring RabbitMQ and AMQP.

HEWLETT-PACKARD | hp.com | Software Specialist | Feb 2006 – Jun 2011

Bangalore, India • U.S. Oregon • Singapore • Technical lead bridging onsite and offshore India team

- **Video Endpoint Security:** Developed NAC solution to remotely secure Halo video endpoints via JNDI, OpenLDAP, and RADIUS; built packet monitoring apps for proactive readiness of Halo endpoints.
- **Automation & Testing:** Developed component automation and unit test frameworks for capacity simulation using Java, J2EE, XMPP, Hibernate, C#, WPF; advocated Qt/QML for Skype for Business integration.

- **Productivity Apps:** Built scheduling, reporting, and calendaring applications using ASP.NET, IIS, and LINQ for enterprise video operations teams.

HEWLETT-PACKARD | hp.com | Senior Software Engineer | Oct 2003 – Jan 2006

Bangalore, India

- **Digital Pen & OCR:** Instituted forms automation framework for digital pen processing using InkML, JNI, XForms, VC++; independently designed FASLipi character recognition engine with native interfaces.
- **Document & Print Systems:** Developed HP Dazel Document Web Delivery (HPWD) prototype using Velocity/Struts; built Cascade Variable Data Printing with i18n/SVN/WITS on Sun Solaris.
- **Workflow Automation:** Designed Admin Workflow Render Configurable UI for Pipeline processing using Struts, Servlets, J2EE MVC.

CAPSILON • R SYSTEMS • WEBOPAC | Software Consultant | Dec 2000 – Sep 2003

Pune, India • capsilon.com • rsystems.com

- **Messaging & Fax:** Developed SMTP gateways, CMS/SOAP/JNI clients for fax broadcast for Capsilon MediaTel.
- **Ecommerce & Library:** Built repayment e-commerce transaction module (Java Servlets, EJB, XSLT) for ABN Amro at R Systems; developed multilingual Unicode Library Management System (Java Servlets, ASP) for MASTEK at WEBOPAC TLMS.

INNOVATION, PRE-SALES & GOVERNANCE

- **AI Meeting Intelligence:** Built a production-grade AI transcription/sentiment analysis tool; won ITC Internal Hackathon.
- **Presales Record:** Delivered winning architectures for IKEA, Lamborghini, ABB, and Royal Enfield, directly converting pipeline to signed engagements.
- **Digital Thread POC:** Led the first safety-critical traceability proof-of-concept for elevator systems using MBSE methodology.

EDUCATION & CERTIFICATIONS

B.E. Electronics & Communication — Karnatak University, Dharwad (1999)

Certifications: Microsoft Azure AI Fundamentals (AI-900) • Certified Scrum Master (CSM) • PTC Windchill RV&S Mastery • Aras PLM Practitioner

In Progress: PTC Codebeamer Implementation Practitioner (actively spearheading migration; certification in progress)
